ABOUT ME

Hi! I'm Junnel Villanueva, a second-year college student currently studying Information Technology. I enjoy spending my free time playing online games, listening to music, and exploring different forms of art. When I'm not indoors, I like staying active by playing outdoor sports such as soccer and going to the gym. I would describe myself as a chill and curious person—mostly introverted, but outgoing once I get comfortable. I enjoy learning new things, whether it's related to technology or personal growth. My main goal is to finish my studies successfully and achieve financial stability in the future.

FUN FACTS

- ✓ I'm an introvert, but put me in a game, gym, or soccer field—and I'm suddenly outgoing.
- ✓ I'm always curious—whether it's learning something new in IT or trying a new hobby
- ✓ Chill by nature, competitive by choice.
- ✓ I balance my time between online games and real-life workouts.
